

F. 380

Patch of red stones in S. joint line in interior: in direct line with hearth (F. 378.) ~ PH (F. 355)

3/17/71 : excavated - red stones extended down into fault to depth of c. 15 cm.

③	8.50 m.	8.15 m.	8.35 m	8.57 m
④	8.96 m	8.60	8.60 m	8.75 m

Stones at top of this feature were clearly similar to stones in rest of ~~fault~~^{joint} line in shape, position etc: ~~flat~~ but reddened. When removed, there was below soft earth, with ^{some} more reddened stones - ~~probab~~ in this again similar to rest of ~~fault~~^{joint}
