

NB. PF numbers are features which were originally assigned feature numbers but on being found to be natural were reassigned numbers in the PF series and their F numbers reused.

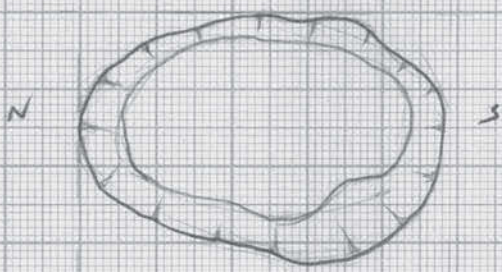

"ERSTWHILE" FEATURES - CIVa - CH 75.

- DITCH 603 Previously excavated - backfill partly removed to show F648 + F650.
- DITCH 853 Partly excavated previously. Sub layers - see front of book.
- BANK 602 Had been dug down to in previous season. Sub layers - see front of book.
- F 648 Posthole. Cut into side of DITCH 603. Previously excavated.
- F 650 Posthole. Cut into side of DITCH 603. Previously excavated.
- F2101 (prov) Causeway to DITCH 853?
- F2102 (prov) Either very shallow posthole or bottom of posthole, the top of which having been removed unnoticed. Under bank 602? OR cut into it?  
(now called PF1)
- PF1 - delete as feature. Shallow hole due probably to foot action.
- F2103 Wall. Extending into cutting CI. Photo taken and plan drawn - page 12 of comment.
- F2104 Wall within area of F2101
- F2105 Ditch continuation.

Profile 1:10 F2102

Homogenous fill -  
see descr.
