

F2103 THE WALL

A wall located within the bank area between the old cottings CIV and CI. It was also noted in CI. Plan ~~on~~ on main 1:20 plan. Occurred below a layer of brn Inst chipples. On Bank 602, at rather up against edge of bank as setting.

F2104 WALL

This is related to the causeway 2101 and seems to separate DITCH 2105 from the Causeway proper which, including the wall is only c/5m wide
