ASSOCIATED FEATURES ? F 3442

F 3400 & F 3405

ASSOCIATED FINDS many potsherds, 1 frag clamb.

F 3374 } AB
F 3376 }
F 3395 }

COMMENT This feature together with F's 3442, F 3374, 3376 & 3395 appear to be the post holes of a small 5 post structure.

It is also possible that F's 3400 & 3405 were the hearth (possibly successive) belonging to this structure, but they would be rather strangely placed?
