COMMENT

? collapsed over ? hearth ? ph.
 Probably at least two hearths. Later one is to NW & is called F4401. SE area
 different & is probably an earlier hearth (F4447) splitting of feature A on 1/8/81
 ? further hearth to NW - now thought unlikely after excav. 3/8/81
 See attached sketch. Given a number anyway 5/8/81

Actual coordinates = 5.70E 0.90N
