## Comments

Wall of rampart 10705. It was immediately  
discernible on removing the turf, and the number 10718 was thereafter  
used to describe the central core of the rampart, as opposed to  
the walls. Further down, this number continued to be used,  
and until 10753 was reached there seemed to be no

Phase II

differentiation in the core rubble. However there probably was, in view of the later rear (south) wall 10750 which was added.
