If no, explain why.....

Geobase code:

DESCRIPTION

Circular feature, vertical sides and a flatish base. The fill was a purple/brown material which was so hard that a crowbar was necessary to excavate it. The fill was harder than the surrounding gull. Greater ~~shape or presence of charcoal in the fill with vertical~~

PHOTOGRAPHS	B/w number	Col number
Plan number	Section drawing reference	

Comments

Circular shape and vertical sides with presence of charcoal in fill suggests this may be a posthole. - may be sink hole at base of 15271
