## COMMENT

? hearth ? ph. posthole probably. 4423 = this posthole, 4446 = hearth.  
Seems to be two layers - upper layer of small burnt gravel.lower layer filled with large stones, unburnt.  
Could be a ph. cut by later hearth. (F4446) - This now seems the best interpretationActual coordinates = 2.10 E 7.05 N
