

2058 Circle of soil w. burnt stones (blue-pink) p.h.? Sealed by
 CV ④. Just E. of F. 2042

Plan 3 2059 Circle of soil w. stones 20cm. E. of F. 2057. Ph?

Plan 2 2060 Circle of soil " " "

Plan 2 2061 Area of burnt stones sealed by F. 2010 ④ on slope track.

Plan 2 2062 Group of small burnt stones W. of F. 2061. Sealed by F. 2010 ④
 on slope track.

Plan 2 2063 Group of small burnt stones sealed by F. 2010 ④.

Plan 2 2064 Group of burnt stones in a circle on slope track sealed by
 F. 2010 ④

F. 2065 Circular area of chipples & small stones showing up
 Plan 2 within F. 2010 ②: if a p.h. it cuts the ditch fill of F. 2033
 (i.e. cuts F. 2010 ⑤).

F. 2066 Hollow belt along W. bank just E. of ④.

Plan 3 2067 Sub-rectangular area of red soil & small stones (1 burnt) cut into
 bedrock under bank between strips 1 & 2. Sealed by CV ④.

Plan 3 2068 Sub-circular patch of tamped soil + pitched stones, W. of F. 2046.

2069 Semi-circular ? p.h. cut into ^{E.} side of F. 2039, although F. 2039
 could be later. Fill of light brown soil + small rock rubble.

5-8-75 (R)

NB: True bottom of this feature was approximately along the string line, & the section as drawn may reflect a dragging of the fill downwards into F. 2039 when F. 2039 was either dug or filled. The feature in fact has a flattish bottom (see Plan 3), although sloping S-wards.
