ASSOCIATED FINDS

COMMENT Poss same sort of feature as RR's last year in 197 - F4025

PHASING

SECTION:

NOTES/PHOTOGRAPHS:

The feature appears to have been set upon the gull in a trench cut through the chippies. There is evidence of burning of stones under the pitched stones. As the pitched stones themselves are not burnt I suggest that the burnt stones are re-used ones and were not burnt in situ. No finds associated with feature.  
Purpose of feature unknown.
