#### ASSOCIATED FEATURES

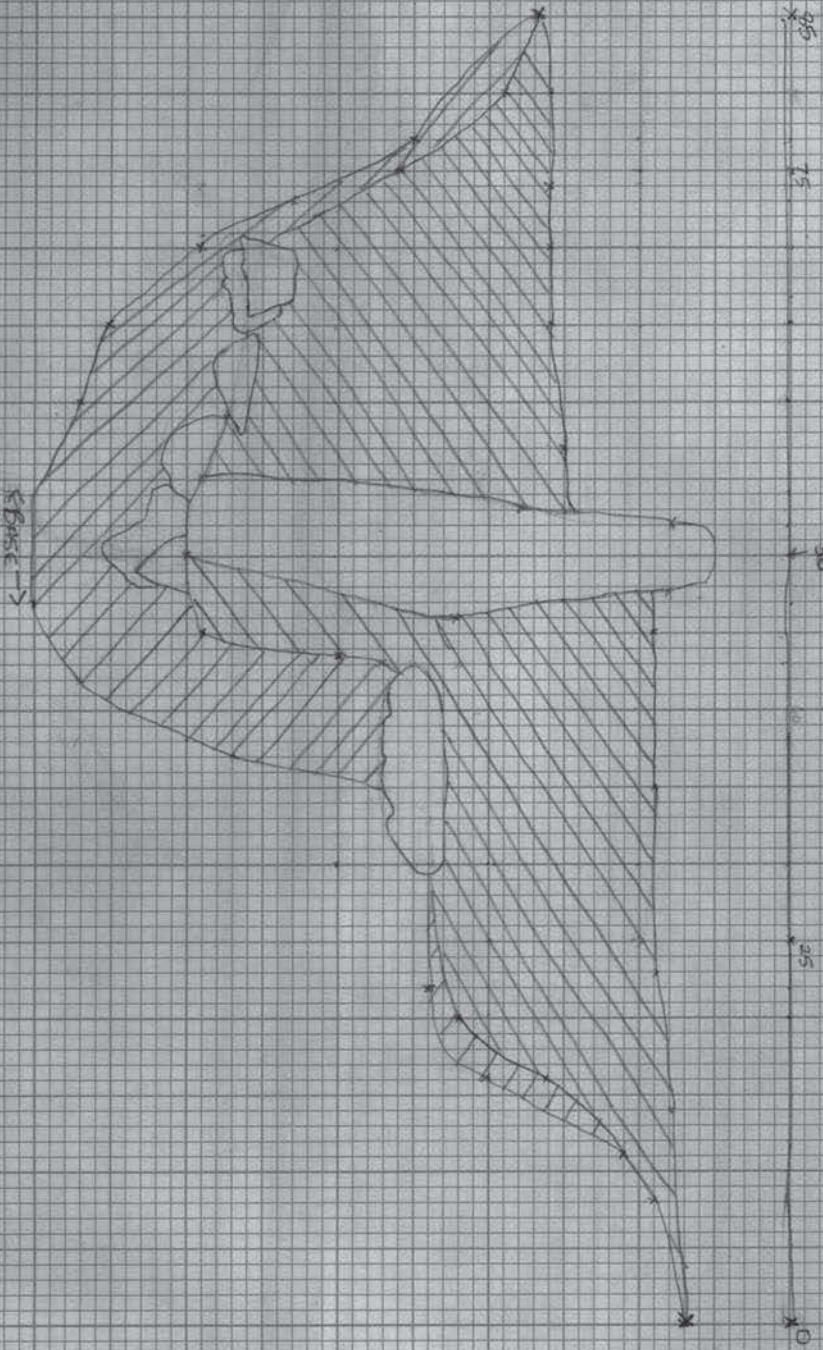

NUMBERED AS FS412 in CH82

#### ASSOCIATED FINDS

COMMENT Appear to be only a large stone buried in the ground.  
No associated ~~stone~~ post-hole, but seems v. unlikely to be  
a natural feature - packing stones present.  
May be a stone for an uncompleted hearth. No other elements found,  
but similar to the large vertical of FS814

#### PHASING

Not finished  
VSC

F11 : Above = gully wall  
Below = large mounds with light brown & soil.
