COMMENT Cobble area 5867 runs up to the edge of the slabs, then stops, with only a few small patches amongst the slabs, which seems to indicate they are contiguous.

Slabs of this floor run over 5813 (pk) & over a small area of fill & the large pk F5865. This indicates 5813 is earlier than 5865, but 5865 may be contemporary with 5818, although the pat was put in & packed before the floor was laid.
