SECTION:

F 4012 Cutting L7 Scale 1:10 Profile

Post-pipe fill of brown soil and small unburnt stones.

CHART
WELL A4 210x297 mm

Soil sample 537 taken from post-pipe.

|| || 606 || || packing

Appears to be a somewhat isolated post-hole. Check on Plan 0 to see if you think it shows through the worn limestone, F4001, I don't think it did. If other to top stones were worn smooth like the rest of the area, for the stones which became worn were laid on top, don't really see any evidence for having a laid surface however.
