ASSOCIATED FEATURES

ASSOCIATED FINDS

COMMENT Pot-hole blocked by fall of large packing stones, so
not identified until bottom reached, fortunate enough to get a
decent section however, which shows fall of packing. Pot-pit of
very irregular shape.

PHASING

NE post-pipe presumably follows up
on these general lines shown where
cut into bedrock

- ① Ball chippie & soil
- ② Gray, red and brown limestone
- ③ Band rock cut? post-pipe
filled pipe downward in
upper levels by packing
stones full of iron, leached
bed in this part with
ball chippie.

NOTES/PHOTOGRAPHS:

Could appear on full excavation that what we have
here is a burnt out tree stump and not a P.H. 1 does of
post-pipes are false.
