ASSOCIATED FEATURES

ASSOCIATED FINDS Over 100 pieces of pot including base and rim, Base 4, GPC, 1, Lias? 4.

COMMENT Construction same as h025 with unbent upturned stones, with predominantly grey basalt. Stones are side and red bent on the other. Many more finds associated with this one, including a large quantity of pottery. Unfortunately not so meticulously excavated as

PHASING

F-4025 seems to have been set in a shallow pit, although probably due to heavy faulting in this area.
