CONTEXT F<sup>387</sup>.....

CUTTING .....<sup>N8</sup>.....

DATE EXPOSED .....<sup>July 29th 1980</sup>..... DATE COMPLETED .....<sup>/</sup>.....

DESCRIPTION An area of upturned stones, in a distinct grouping, partly concealed by the western cutting edge on the lip of a quarry tip. This may be a posthole since the disturbance appears too localised to be faulting. However, upon examination it appeared to be deep faulting.
