why.....

Geobase code:

DESCRIPTION

Line of pitched large worn stones at
N. edge of area of worn stones 16506. These were
even more noticeable when the top layer of 16506 was
excavated (16506) goes no further than this line of large stones.
These look like the result of jantop 16506 set up against these
upright stones. 16506 ends against its South edge.
