COMMENT

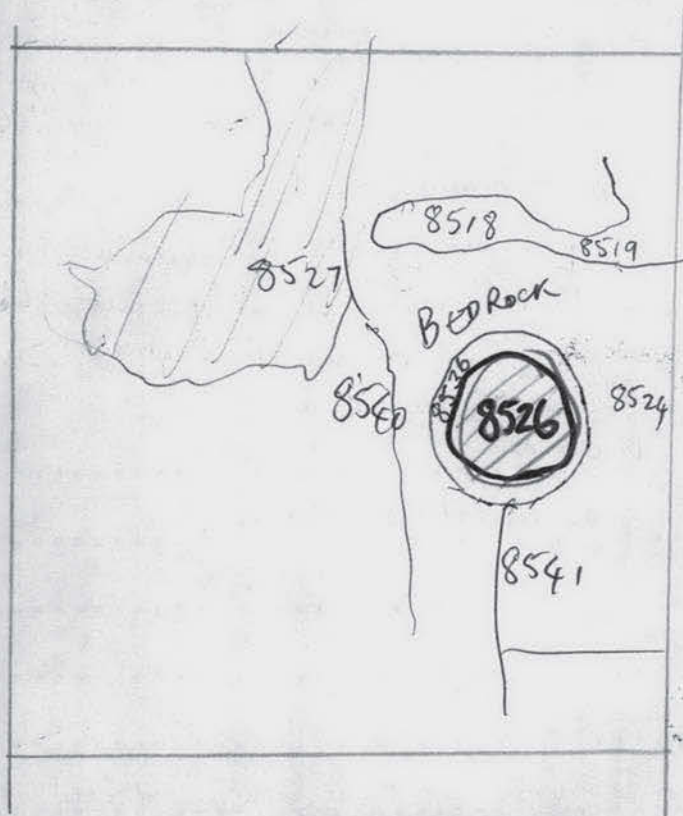

NE and SW quadrants have been
left unexcavated. No soil samples were
taken. Excavation of the two quadrants in 1988 was
perhaps too rapid to detect ^{of feature} internal features.
SE edge not at all clear.

P.T.B. Sketch plan.

7.8.88 small worn stones of 8512 around 8526 removed - thin covering
2 cms in depth - comes down to bedrock in Northwest,
and down to jumbly material in Southeast.
8512 had been kicked up against 8526 I presume.

PHASING

8-8-88 Excavated by quadrant - First NW+SE quarters removed

After removal of
8512
