ASSOCIATED FEATURES

Posthole f 6447?

ASSOCIATED FINDS

Charcoal. (foreign stone)

COMMENT

~~Burning piters and after a depth of c 10cms no apparent feature discernible.~~

Along with f 6447 this feature is a slot or pit

PHASING The Section overlay only shows the edge of the pit. The removal of the second half of the section revealed a much deeper and larger feature combining with f 6447 to form a pit or slot

Jf 12/8/85. Palisade Slot Period 1 d

N.B. This section caught only the edge of this feature which later
 was shown to be 65 cm deep.
